The Titsey Learning Exchange has been established to bring an insight for school children to a working farm estate to see how our land is managed and how some of your food is produced.

Situated at Pitchfont Farm at the heart of the historic Titsey Estate, it nestles at the foot of the North Downs, inside the M25, and within easy reach of the schools in Surrey and the greater London area. Our primary aim is to share with children how animals are reared and cared for on a daily basis as an understanding of where our food comes from. We will be able to show you how we need to care for our environment at the same time as producing top quality food from the land.

Your visit will be led by our farm manager and education co-ordinator whose wealth of knowledge will enable your outdoor learning experience to be truly memorable.

Your visit can be tailor-made through the seasons to match a range of National Curriculum subjects and your own creative classroom topics. Learning outdoors so often serves to optimise pupil engagement and knowing about the land where you live, how it is looked after, and what it produces, forms very much a part of what constitutes British Values.
A day in the life of a farmer!
Come and find out about all the work that has to be done every day to look after, feed and care for the animals on the farm. You can also see which crops are growing and understand where some of your food comes from! From farm to fork!

Spring on the Farm!
This is an exciting opportunity to see the new life on the farm. Come and see our new calves and lambs along with a wealth of new plant life in the woods and crops in the fields.

Educating pupils about life in the countryside through hands-on experiences for pupils not only helps to make learning memorable, it helps pupils to realise how important food and farming is to all our lives and even more significantly, involve them in the challenges that they will face as consumers, parents and thinkers of the future.

The woodland walk!
This is a day visit where you will have the opportunity to investigate our woodland plants and habitats, appreciate our spectacular countryside and the land-use of the farm where our animals graze and our crops are grown.
The Titsey Learning Exchange at Pitchfont Farm

We very much hope that you will make contact with us as we feel passionately that our wonderful outdoor learning environment offers so much that fosters independent enquiry, reflective learning, creative thinking and effective participation. We look forward to hearing from you!
